Press Release

First Colo GmbH supports the fight against AIDS

Munich, 22.09.2009

The First Colo GmbH supports the association Rainbow e.V. and the advertising agency "das comitee". Occasion for this action: the World AIDS Day 2009 on December, 1st. In collaboration with many sponsors the project "AIDS is a mass murderer" came up on top. Alongside an extensive web site, several video spots are already on air, primarily provocative – suiting the topic Anti-Aids!

Protect yourself and help us: every 15 seconds a person dies due to this terrible incurable disease worldwide. The First Colo GmbH is setting a good example and supports Rainbow e.V. in hosting solutions for streaming and video functions. There are a lot of reasons why to sponsor this campaign, one of them are the shocking figures and the fact that the public interest in AIDS has plummeted in the past years dramatically. However, the number of victims is rising unabated. So far, about 28 million people died worldwide. And every day brings over 5.000 new deaths to the list. There are more than 60.000 people infected with HIV or AIDS patients solely in Germany.

The enlightenment videos with shocking images make people think about one of the most important problems in our society. The First Colo GmbH supports actively the aim and the motives of the campaign "Aids is a mass murderer" and urges each person to ensure that HIV cannot be buried in oblivion.

About the First Colo GmbH

The First Colo GmbH is for more than five years on the market. Back in 2002 First Colo arose from the servernetworks GmbH; in the course of our development a huge client base regarding hosting and housing emerged in a timely manner. In 2005 the change of the company's legal status to digitallabs network GmbH proceeded. Having undergone this process, you offered game server, hosting and housing products with great success. At the end of 2007, after more than two years of thriving market presence, three company members promoted the First Colo GmbH with the aim to reposition oneself on the market. Since the year 2008, the company has own localities in Frankfurt's data center for the purpose of renting Colocation Space.
