## Press Release

### First Colo GmbH is now a DE-CIX member

Munich, 27.05.2008 - The First Colo GmbH takes another important step for the future in order to maintain a professional development of the leadership capacity.

With immediate effect the First Colo GmbH is an official member of the DE-CIX, currently the biggest German Internet node. More than 338 ports with a total bandwidth of 1011 Gbit / s guarantee the best future development possibilities for the First Colo GmbH.

By making a 1 Gbit connection to the data center in Frankfurt available, the expansion and upgrading progress is initialized. The First Colo GmbH will therefore also be connected to Germany's biggest Internet node and improves its accessibility, especially in Western Europe enormously. Improved peering, which ensures optimal performance, guarantees the customers even a greater operating range.

The activation will take place on May 29<sup>th</sup>, 2008 and hence, the First Colo GmbH can expand with another GBit.

#### About the First Colo GmbH

The First Colo GmbH is for more than five years on the market. Back in 2002 First Colo arose from the servernetworks GmbH; in the course of our development a huge client base regarding hosting and housing emerged in a timely manner. In 2005 the change of the company's legal status to digitallabs network GmbH proceeded. Having undergone this process, you offered game server, hosting and housing products with great success. At the end of 2007, after more than two years of thriving market presence, three company members promoted the First Colo GmbH with the aim to reposition oneself on the market. Since the year 2008, the company has own localities in Frankfurt's data center for the purpose of renting Colocation Space.
