Press Release

First Colo starts trial run of FRA1

Munich, 01.09.2007 - The young company First Colo GmbH, which is actually in the process of formation, has formally commenced operations in the new data center FRA1.

Among others the connection to the nodes, and the technology was put to the acid test. A Cisco network is in operation and a Juniper core router, who has to cater for reliable operation with effect from 01.01.2008, are already online.

In the upcoming weeks an optimal configuration and optimal performance will be prepared to start the business from their own localities in Frankfurt just in time.

About the First Colo GmbH

The First Colo GmbH is for more than five years on the market. Back in 2002 First Colo arose from the servernetworks GmbH; in the course of our development a huge client base regarding hosting and housing emerged in a timely manner. In 2005 the change of the company's legal status to digitallabs network GmbH proceeded. Having undergone this process, you offered game server, hosting and housing products with great success. At the end of 2007, after more than two years of thriving market presence, three company members promoted the First Colo GmbH with the aim to reposition oneself on the market. Since the year 2008, the company has own localities in Frankfurt's data center for the purpose of renting Colocation Space. In 2009, a new backbone router, the Juniper MX480, was purchased and installed.
